

### Home Page:

- To merge the calls with Chat groups and evaluation forms in one section
- The 2 blocks for Ads needs to be in the standard sizes, we would prefer to have one to be 250x250 and the other one to be 468 x 60 or 320x100 (which would be better when browsing the website through mobile)
- Can we add an Ad block in the upper half of the page?
- Ads blocks have to appear in all pages even articles.
- Logos of supporters to be right after the newsletter line.
- From where new users can sign up a new account? تسجيل الدخول / إنشاء حساب جديد
- As for the directory section in the homepage, can we please color the search button in green.

### Inner 1:

- very beautiful, we only need to add the Ads blocks in all pages, unless it will be added automatically once added to the homepage.

### Inner 2:

We need to make it easier for users to understand the icons. We need to please write:

أعجبتني، إضافة إلى مفضلتي

We need to add one line under the writers name in the top of the article. For example,

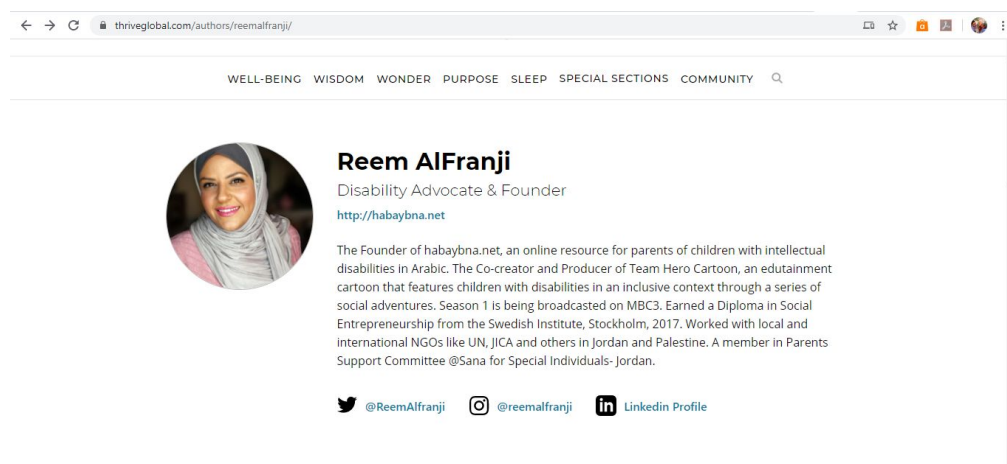

لينا أبو سمحة  
أم لطفلة لديها شلل دماغي

### Inner 3:

Looks nice, but we need to add: المزيد under each speaker so people know when they click they can read the bio.

Also inside the bio in this section, can we add handles for the speaker's own pages on social media? With "No Follow Links" in the programing.

looks great

**Inner 5:**

Great, but better to have the search button in green with rounded bars' corners.

**General Notes on SEO:**

We decided to have the content public so they can be found easily on the search engines. Suggested is to have a number of articles appear partially and if you want to read more, you can sign up as a free user.
